

MAZDA3 MPS

zoom-zoom

It's a hatch with a harder edge. A scorching turbocharged 190kW, a chassis honed for even sharper handling and looks that pull no punches. And you get comfort and safety on par with the performance. Mazda3 MPS. It's Zoom-Zoom dialled right up. ◀

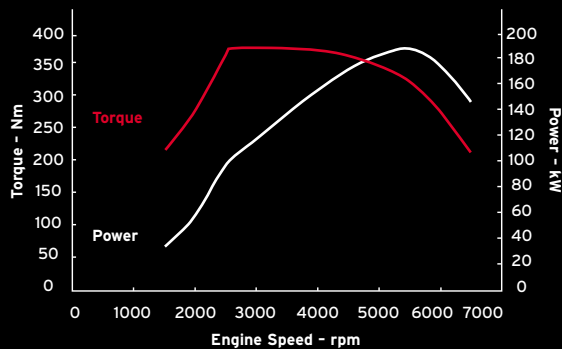

PREPARE FOR TURBOCHARGED TAKE OFF.

Adrenaline boost.

LED gauge climbs with turbo boost. Lightweight, durable turbocharger responds quickly for strong low-end torque and responsive power through the range.

Hit the start button in Mazda3 MPS and you won't be the only one taking a deep breath. The aggressive bonnet scoop feeds a 2.3 litre four-cylinder Direct Injection Spark Ignition (DISI) engine, boasting the rare combination of intercooling, direct injection and turbocharging. It pumps out 190kW of power and a massive 380Nm of torque. Just as impressive is the way power is delivered. Responsive direct injection combines with a lightweight turbocharger to minimise turbo lag. And as 85% of torque is on tap from just 2000rpm, stunning acceleration is yours in an instant.

It's a sensation you'll enjoy again and again, as you snick through the close-ratio 6-speed manual transmission. You'll also smile at impressive fuel economy and low emissions, thanks to the high efficiency of direct injection. With Mazda3 MPS, you'll get fired up with every touch of the accelerator.

Technical knockout.

DISI technology combines with intercooling and turbocharging to deliver formidable power, yet low fuel consumption and emissions.

Mazda3 MPS Luxury

Mazda3 MPS Luxury

CORNERS ARE THERE FOR THE TAKING.

The way Mazda3 MPS blasts along straights is matched only by its superb control in corners. Special reinforcement makes its chassis even more rigid. There's also stiffened sports suspension and thicker anti-roll bars, so you'll slice through bends with agility, a flat stance and sure-footed stability. Electro hydraulic power assisted steering (EHPAS) connects you to the action, with precise feedback and perfectly-weighted feel. Mazda3 MPS employs advanced torque management to put its power to

the road with breathtaking effect. This combination of intake volume and boost pressure management, steering angle sensors and stiffened drive shafts ensures even, predictable torque delivery. A torque-sensing limited-slip differential gives you a firm grip on the road, while large 4-wheel disc brakes with ABS give you plenty of stopping power. The way MPS cuts the air is also part of the rush. Aerodynamically shaped to aid performance and fuel economy, it features front and rear spoilers for improved roadholding. Cooling fan speed flaps that open only when required enhance aerodynamic efficiency.

◀ **What a ride.**
Upgraded MacPherson strut front and multi-link rear independent suspension delivers highly responsive handling.

▲ **Fast footwork.**

Drilled aluminium pedals perfect for serious sports driving.

A HARD HATCH WITH A SOFT SIDE.

Mazda3 MPS gives you formidable performance with great comfort. Welcome lighting creates a sense of anticipation. Quality materials and finish give the interior a special feel. The cockpit wraps around you, putting the precise-feeling controls just where they should be. Semi-bucket front seats clad in leather and premium fabric hold you securely with excellent support, just the place to get serious about driving. 8-way power adjustment with a 3-position memory function features on the driver's seat. The interior's stylish black tone is set off by a striking fabric design exclusive to MPS. Red stitching on the leather-wrapped steering wheel and gear shifter, plus the seats,

door trims and centre armrest completes the look. Dual-zone climate control air-conditioning allows individual choice of the perfect temperature. Add power windows and mirrors plus steering wheel-mounted cruise control switches, and you're set to go.

◀ **Right where you want them.**
Cruise control and dual-zone climate control air-conditioning fall to hand easily.

Mazda3 MPS Luxury

BOSE

YOU'LL FEEL VERY WELL CONNECTED.

Mazda3 MPS packs in all the technology you need. Steering wheel-mounted switches connect you to an impressive range of functions, including satellite navigation and Bluetooth® technology, enabling hands-free phone use and MP3 player connectivity. They also access a handy multi information display, showing everything from trip computer information to a maintenance monitor. And you've got fingertip control of an MP3/WMA compatible in-dash 6-disc CD player, giving you clear six-speaker sound enhanced by interactive illumination. MPS Luxury goes even further. Its audio system makes a big impression, with a 242 watt BOSE® digital amplifier plus ten speakers, including a sub-woofer. Other special touches include an auto-dimming rear-view mirror, rain-sensing

wipers and adaptive Bi-Xenon headlamps with an auto on/off function. Mazda3 MPS connects you to the drive with full sports instrumentation. Blackout effect meters sparkle to life as you hit the ignition, their striking amber-red and blue design making information crystal clear.

◀ **You're dialled in.**
Stay connected on the move with Bluetooth® hands-free phone operation.

▲ **Press to play.**
Smart keyless entry lets you get in and go without fumbling for keys. By carrying the remote locking transmitter you can enter by pressing a button on either front door, then start up with push-button ease.

Mazda3 MPS Luxury

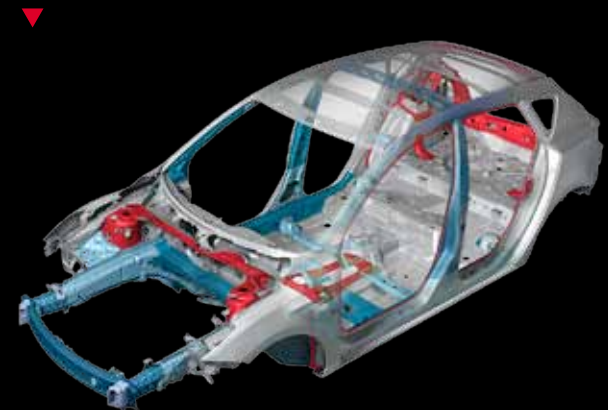

PERFORMANCE WITH CONFIDENCE TO MATCH.

Mazda3 MPS is serious about safety. An extremely strong 'Triple H' construction with front and rear crumple zones is integrated into the body shell. It's part of the Mazda Advanced Impact Distribution and Absorption System (MAIDAS), which absorbs impact energy and directs it away from the occupant safety compartment. Added protection comes from six airbags, comprising front, side (front) and curtain (front and rear). Active front head restraints are also featured. They instantly move forward in the event of a rear-end impact, bracing the neck against potential injury. All seats have seat belt reminders, the front belts adding pretensioners and load-limiters. Dynamic Stability Control (DSC) incorporating traction control is standard. Large disc brakes all round provide even more reassurance. They're equipped with ABS and Electronic Brake-force Distribution (EBD), which optimises braking by adjusting its force according to

vehicle load. There's also Emergency Brake Assist (EBA), which monitors pedal speed and force to recognise emergency braking, adding braking power just when needed. Mazda3 MPS offers impressive technology and performance. And servicing through the Mazda Maintenance Program gives them the very best protection. Your car will be cared for by factory-trained Mazda Technicians, equipped with one of the

Safety through and through.

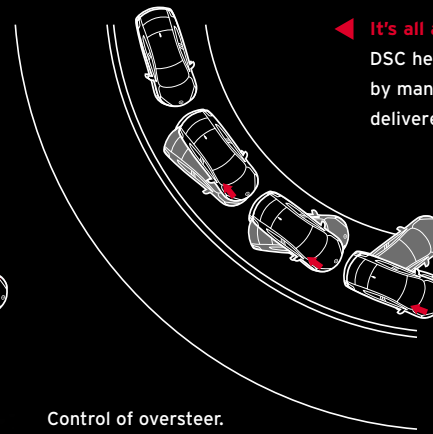

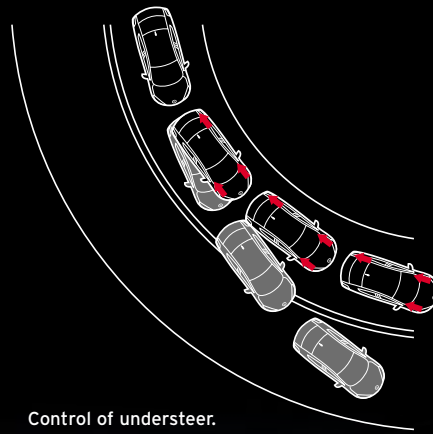

Strong body shell incorporates MAIDAS to provide exceptional protection of the occupant cell.

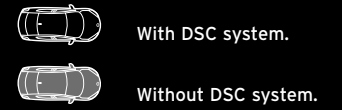

Get hold of the road.

18 inch alloys wear high-performance tyres for a generous footprint. Big brakes feature ABS, EBD and EBA.

world's most advanced computer diagnostic systems.
Mazda3 MPS also gives you the added confidence
of a 3-year, unlimited kilometre factory warranty.
